Greece Country Study Guide Volume 1 Strategic Information and Developments-IBP USA 2012-03-03 Greece Country Study Guide - Strategic Information and Developments Volume 1 Strategic Information and Developments

Alex Michaelides 2020

East Aegean-Rod and Lucinda Heikell 2021-07-01 The expanded third edition of this popular cruising guide encompasses the Greek Dodecanese islands and the Turkish coast eastwards from the Samos Strait to Kas and Kekova. Fully illustrated with up to date plans and numerous new photographs, it is packed with all the essential information for getting to the area, formalities and sailing these beautiful cruising grounds. There is a level of further detail to this coverage in terms of anchorages and other destinations than is found in the Heikell's Greek Waters Pilot and Turkish Waters and Cyprus Pilot. This handy guide also whets the appetite for the local cuisine and culture and gives some historic context to exploration ashore. The fantastic background information with historical and mythological anecdotes gives ... a richness too often missing from bald pilot guides. Royal Cruising Club ... no East Med cruiser will want to sail without a copy. Yachting Monthly

Logistics of Warfare in the Age of the Crusades-John H. Pryor 2006 How were the Crusades made possible? This volume is the first to bring together experts from the fields of medieval Western, Byzantine and Middle Eastern studies specifically to address the logistics of Crusading. It deals with questions of manpower, types and means of transportation by land and sea, supplies, financial resources, roads and natural land routes, sea lanes and natural sailing routes. Of particular importance is the attention given to the horses and other animals on which transport of supplies and the movement of armies depended.

The Geotraveller-Roger N. Scoon 2021-03-25 This book describes famous geosites and historical localities in national parks and conservation areas from North America, East Africa, and Europe. The geosites include iconic landforms associated with active volcanoes, canyons, glaciated landscapes, natural rock monoliths, and rifts. The potential for geotourism in historical localities such as the famous Greco-Roman antiquities of Greece, Italy, and Turkey, is emphasised. Some of the geosites and historical localities provide evidence that previous civilizations coped with active geology and major climatic cycles, whilst others reveal evidence of famous geological events recognized in history and ancient mythology that helped shape our current civilization. The book assists tour guides and visitors (both geologists and non-specialists) interested in geotourism by providing an understanding of geological processes in the national parks and historical locations with the assistance of photographs and simplified geological maps.

Cilin II: A Solo Sailing Odyssey-Edgar D. Whitcomb 2011-11-17 In 1986, seventy-one-year-old Edgar Whitcomb faced a crossroads in his life; he needed a new direction. Th at venture became an epic journey, as this retired Indiana governor embarked on what would be a solo, 30,000-mile, six-year sailing trip. With virtually no previous sailing experience, he and his thirty-foot sailboat, the CILIN II, traveled around the world. In this travel memoir, a chronicle filled with danger and adventure, Whitcomb narrates the details of his exploits on the seas and in ports from Greece, to the Canary Islands, Antigua, Panama, Australia, and many points in between. He describes what can happen to a sailboat in distress and the consequences when a boat runs aground or is snagged in a fishing net. A story of the joys and frustrations of sailing, Cilin II: A Solo Sailing Odyssey recounts one man’s realization of a dream and demonstrates his courage, endurance, and the lessons learned from meeting new people, seeing new places, and experiencing new ideas. It’s a story about a thirst for excitement and world exploration that both begins and ends in the hills of southern Indiana.

The Returns of Odysseus-Irada Malkin 1998-11-30 This remarkably rich and multifaceted study of early Greek exploration makes an original contribution to current discussions of the encounters between Greeks and non-Greeks. Focusing in particular on myths about Odysseus and other heroes who visited foreign lands on their mythical voyages homeward after the Trojan War, Irada Malkin shows how these stories functioned to mediate encounters and conceptualize ethnicity and identity during the Archaic and Classical periods. Synthesizing a wide range of archaeological, mythological, and literary sources, this exceptionally learned book strengthens our understanding of early Greek exploration and city-founding along the coasts of the Western Mediterranean, reconceptualizes the role of myth in ancient societies, and revitalizes our understanding of ethnicity in antiquity. Malkin shows how the figure of Odysseus became a proto-colonial hero whose influence transcended the Greek-speaking world. The return-myths constituted a generative mythology, giving rise to oral poems, stories, iconographic imagery, rituals, historiographical interpretation, and the articulation of ethnic identities. Reassessing the role of Homer and alternative return-myths, the book argues for the active historical function of myth and collective representations and traces their changing roles through a spectrum of colonial perceptions—from the proto-colonial, through justifications of expansion and annexation, and up to decolonization.
